Grid-based path planning: A*

- **How to find the collision free path toward the goal**

Grid-based planner

A* planning

Input: start & goal configurations; **Output:** collision free path

```

1  open set inserts start node
2  while open set is not empty
3      current  $\leftarrow$  a configuration having the lowest F in open set
4      if current  $\equiv$  goal then
5          return collision free path
6      closed set inserts current
7      for each neighbor of current
8          new G  $\leftarrow$  G of current + visited cost from current to neighbor
9          if new G < G of neighbor
10             G of neighbor  $\leftarrow$  new G
11             H of neighbor  $\leftarrow$  heuristic cost from current to goal
12             parent of neighbor  $\leftarrow$  current
13      end for
14  end while

```

Grid-based path planning: A*

- Definition of COSTs

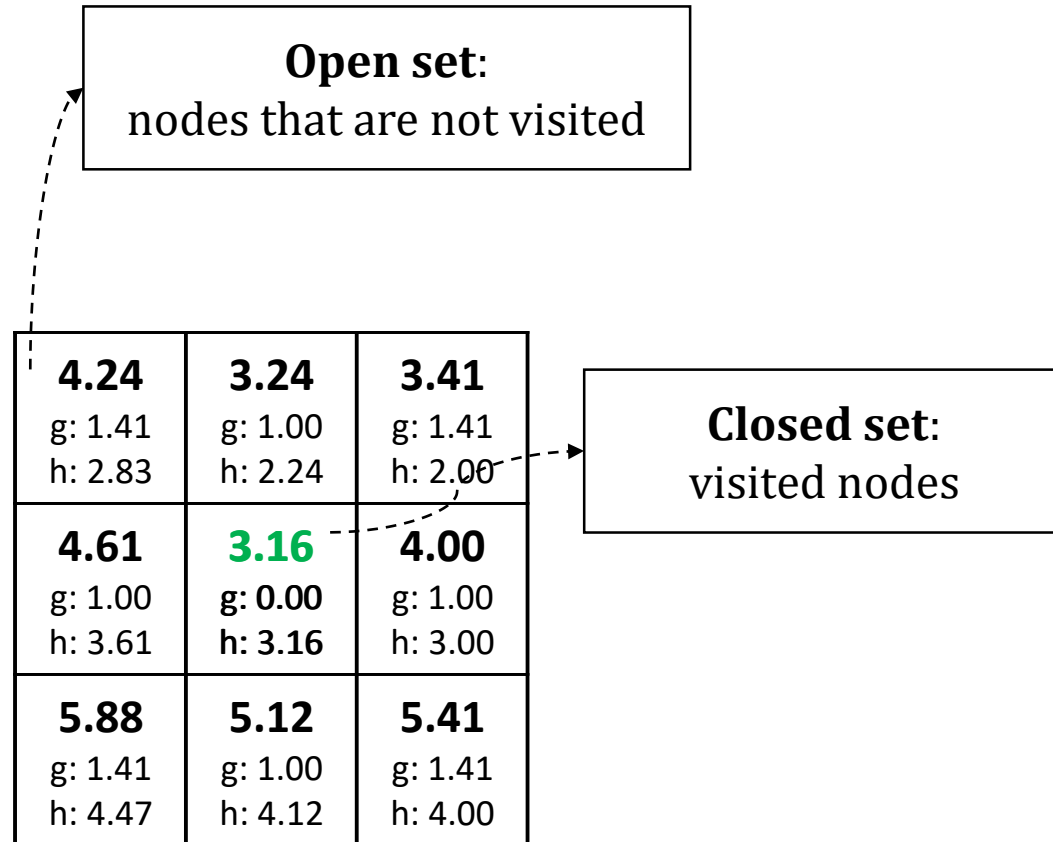

Visited cost	Heuristic cost
G cost	H cost
A real cost for visiting a node from the start node	A expectation cost to reach the goal node from a node
	$G(a, \text{goal}) \geq H(a, \text{goal})$

Node	G (solid line)	H (dotted line)	F = G + H
red	2.00+1.41	4.47	7.88
blue	1.41	2.00	3.41
green	1.41	2.82	4.23

This example uses Euclidean distance as heuristic cost.

Grid-based path planning: A*

Grid-based path planning: A*

Visit the node having the lowest F cost in open set!

The lowest F cost

= the highest chance to reach the goal
through the optimal path

4.65 g: 2.41 h: 2.24	3.41 g: 2.00 h: 1.41	3.41 g: 2.41 h: 1.00
4.24 g: 1.41 h: 2.83	3.24 g: 1.00 h: 2.24	3.41 g: 1.41 h: 2.00
4.61 g: 1.00 h: 3.61	3.16 g: 0.00 h: 3.16	4.00 g: 1.00 h: 3.00
5.88 g: 1.41 h: 4.47	5.12 g: 1.00 h: 4.12	5.41 g: 1.41 h: 4.00

3.16 g: 0.00 h: 3.16

VS.

3.24 g: 1.00 h: 2.24
5.16 g: 2.00 h: 3.16

Don't insert a new node
to open set.

Grid-based path planning: A*

Collision at the node (configuration)
→ don't insert the neighbors to open set
= stop to propagate the path through the node

4.65 g: 2.41 h: 2.24	3.41	3.41 g: 2.41 h: 1.00	4.23 g: 2.82 h: 1.41
4.24 g: 1.41 h: 2.83	3.24 g: 1.00 h: 2.24	3.41 g: 1.41 h: 2.00	4.65 g: 2.41 h: 2.24
